

## **IN THE DRAWINGS**

Please amend the drawings to add Figure 9. Figure 9 was originally added during the prosecution of the parent application specifically to show a “door” in combination with the skid plate and pre-hung door assembly. The Examiner of the parent application indicated no objection to the addition of Figure 9. Support for the drawing amendment can be found on page 7, lines 20-25.

Figure 9 is attached and labeled as a “Replacement Sheet” in accordance with the Revised Amendment Format.
